

Offer – Specialised Internship in Companion Animal Internal Medicine Academic year 2024-2025

## RESPONSABILITIES

This internship provides a unique opportunity to improve your knowledge and skills in Companion Animal Internal Medicine and contribute to the well-being of animals in a collaborative and supportive environment. You will learn under the close supervision of four experienced veterinary specialists in internal medicine to diagnose and manage a variety of internal medicine cases. You will participate in rounds, case discussions, and contribute to the development of diagnostic and treatment plans for our patients in collaboration with a diverse team of veterinary professionals from other disciplines.

## **VETERINARY UNIVERSITY CLINIC**

The Veterinary University Clinic (CVU) at the University of Liège is a renowned institution for veterinary care, education, and research. With specialists from various disciplines, we offer advanced diagnostic and therapeutic services for animals and provide a training ground for future veterinarians and specialists.

## **SKILLS**

The candidate should hold a DVM or equivalent degree from an accredited veterinary school and a rotating internship in companion animals. Proficiency in the French language is essential. The candidate should exhibit a strong passion for internal medicine, displaying a clear ambition to pursue advanced specialisation within this discipline. Effective communication and interpersonal skills are essential attributes, as the role requires collaboration within a team-oriented environment.

## Would you like to join us?

Your applications should include a curriculum vitae, a covering letter and 2 letters of reference. All applicants are encouraged to schedule a visit to the clinic. Selected candidates will be notified for an interview scheduled on the 24th of April in the afternoon. Applications (including letters of reference) should be e-mailed to Nadine Fis (nadine.fis@uliege.be) by March 31, 2024. For further information, please contact Prof Dominique Peeters (dpeeters@uliege.be)
