

Offer - Specialized internship in medical oncology

Academic year 2024-2025

The training

This internship provides a unique opportunity to improve your knowledge and skills in medical oncology starting September 1, 2024. The intern will participate in the management of patients admitted for consultation in medical oncology, administration of chemotherapy, radiotherapy and care of hospitalized patients. They will also take part in the on-call service. They will be actively involved in training of students.

The clinic

The Veterinary University Clinic (CVU) at the University of Liège is a renowned institution for veterinary care, education, and research. With specialists from various disciplines, we offer advanced diagnostic and therapeutic services for animals and provide a training ground for future veterinarians and specialists.

Skills

The candidate should hold a DVM or equivalent degree from an accredited veterinary school and a rotating internship in companion animals. Proficiency in the French language is essential (B2 level). Effective communication and interpersonal skills are essential attributes, as the role requires collaboration within a team-oriented environment.

Interested in joining us?

The application package will include a curriculum vitae, a cover letter, and 2 letters of reference. All applicants are encouraged to schedule a visit to the clinic. Selected candidates will be contacted for an interview, during the month of April. The application package should be sent by email (including letters of reference) to Nadine Fis (nadine.fis@uliege.be) before March 31, 2024. For more information, please contact Dr. Charlotte Auquier (cauquier@uliege.be) or Dr Annick Hamaide (Annick.Hamaide@uliege.be)
